Mrs. Sylvan Bordes, who is spending the winter with her parents, Dr. and Mrs. Francis, of Mt. Vernon, spent from Friday until Monday with her husband in the Copper Creek section. — Mrs. Daisy Hunt was up from Crab Orchard, Sunday and Monday. — Miss Kit Harris, a teacher in Broadhead Graded School is quite sick this week. — Miss Clyde Watson was the guest of her sister Mrs. Fred Durham from Saturday until Wednesday. — Little Mildred Sutton returned to her home in Mt. Vernon last Friday, accompanied by her grandmother Mrs. J. M. Owens. — Dave Roberts of Maywood was visiting relatives here the first of the week. — George S. Durham was in Mt. Vernon, Sunday, between trains. — J. F. Watson was called to Mt. Vernon, Saturday, on account of the serious illness of his little grandson Austin Sparks Durham. — Fred Owens was down from Mt. Vernon last week. — Miss Tempest Ward, who is attending the State Normal at Richmond, was with home folks the last of the week. — Miss Polly Cornett, a daughter of the late Elvin Cornett, and Thomas Payne, son of John N. Payne of Gum Sulphur were married last week. — Harry Lyons of London was in town Sunday. — Mattie Adams and Hazel Reynolds who have been attending Brown Memorial School came home Friday. — Hazel returned Monday. — Mr. and Mrs. J. F. Carter are spending a few days with their son, the Rev. J. Carter, of Wilmore. — Brack Durham is able to be out again. — Mr. Opp Taylor of Mareburg, died suddenly at his home last Saturday morning with acute indigestion. — A small child of James Cash died last Thursday and was buried near his home in the Ottawa section. — Chas. S. Lyons, of Junction City, was in town Tuesday. — Eld. W. F. Rogers filled his regular appointment at the Christian church, Saturday and Sun-

day. — The Board of Trustees of the town of Broadhead, represent five of the best business men we have, two merchants, one lumber dealer, one doctor and a minister, and they have served in that capacity for a number of years the people being so well satisfied with the way they have handled the affairs, that there has been no grounds for a change. Now we don't like to be classed as a kicker, nor is it our intention to complain now; but we want to simply ask this honorable board to insert a progressive plank in their platform. Broadhead has never been classed (until recently) as a back number, having always ranked with Crab Orchard and Mt. Vernon, and we know that this board is not going to allow us to get very far behind now; but will at once make an ordinance that the one most needed improvement, concrete sidewalks, be put down. We realize that it will work a hardship on a few of our property owners, but when the sidewalks are down they would not have them taken up for twice the cost. For the last ten or fifteen years the board have passed different ordinances pertaining to the sidewalks and the people have responded to every call and have been put to considerable expense, and all that is left to show for it is a few creek gravel scattered over the walks, and lots of mud over the gravel. Now, if the citizens who will be effected by an ordinance of this kind, will count the cost of repairing their walks in the old way, the extra shoes that are worn out walking over these gravel, and the over shoes that are lost in the mud occasioned by them, they will see that it will be a great deal cheaper for them to put down concrete and be forever done with the expense. We hope that those who favor concrete walks will go before the board of trustees at their next meeting, and urge them to make the start. Broadhead ranks with the adjoining towns in every way except sidewalks. We have one of the

best graded schools in eastern Kentucky, three good churches, six general merchandise stores, one grocery store, one drug store, two good hotels, one railroad lunch house and restaurant, one bank, Masonic lodge, Royal Arch Chapter, Eastern Star Chapter, Odd Fellow lodge, Ma cable, Modern Woodmen, and Modern Brotherhood lodges, undertaking establishment, roller mill, saw and planer mills, and many other conveniences, which are inducements to out of town folks to move here, but when they land in mud up to their eyes, they never look for anything else, but leave town in disgust. Now, gentlemen, the people who elected you, and those who have the burden of the taxes to pay, expect you to show that you are going to get out of the old rut, by putting old Broadhead in the column where she belongs. The wide-awake citizens demand it, and we sincerely hope that you will demand it. Mr. J. G. Frick is all numbered with the sick. — Chas. Chandler, the flour salesman from London was with the merchants Tuesday. — Dr. and Mrs. Chas. Sowder, of Indianapolis, Ind., who have spent several weeks in Florida, are with the doctor's father, Daniel R. Sowder, and other relatives of this place. — Mrs. C. A. Wheelton is very sick at this writing. — David M. and Leonard Preston sold their household effects Wednesday, and moved their families to Cincinnati, Thursday.

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the cold itself that you need to fear, but the serious diseases that it often leads to. Most of these are known as germ diseases. Pneumonia and consumption are among them. Why not take Chamberlain's Cough Remedy and cure your cold while you can? For sale by Chas. C. Davis.

LIVINGSTON.

Well they tell us that we sure enough have moved into the Eleventh Congressional District. This reminds me of the time that Cleveland was elected, there was a certain preacher living near Level Green that said before the election that if Cleveland was elected he was going to move out of the United States. So sure enough he was elected and sure enough this preacher sold out and everybody thought he would move England or some other foreign country but he landed at Berea, Madison county. We wish to say to our new friends in the Eleventh that we truly hope our association will be pleasant while we know that there is as good men over here (we mean the Eleventh) as ever voted under the rooster and we wish to say to our friends up in the Eleventh with tears in our eyes, that some day it may please the Legislature to repent their actions and we may get back. But one word in conclusion, we are going where we will not get any free garden seeds. Please save ours until a future date. — Walter Browning is visiting his grandmother, Mrs. McGee, at Crab Orchard.

Of the first of this month Cam Mullins, special agent for L. & N. R. R. Co., captured four boys for breaking in and robbing depot and post office, at Fairington, Ky. He captured three in Whitley county Hope Steel, age 15, Lee Dunigan, age 16 and Willie Langlin, age 16 and Chester Phelps age 19. They were brought before Judge G. B. Angel, of Laurel county and sent to reform school, not being old enough to send to the pen. Phelps was indicted by the grand jury. Cam said that if a man did not want justice he better never appear before Judge Angel. He said that Judge Angel was one Democrat that will do his full duty and he did not believe a better man ever sat on the bench. Say, Cam, we democrats are all good men, it is our evil associates that cause the trouble and the more you know about us the better you will like us. — The Town Board has passed an ordinance prohibiting persons from carrying coal off the R. Why is it that the majority of sane Americans turn themselves into blithering idiots when their friends get married? Why is it that a newly married couple should be considered legitimate prey of all the banal practical jokes their silly associates can imagine? The rice and shoe throwing is insane enough in itself, but the riotous ruffianism of the charivari inton adulated barbarism. Recently in New Jersey a tortured bridegroom used a rifle upon a crowd of idiots who were serenading him and his bride. The bullet found its mark in the leg of one of the idiots and a court has found that the shooting was practically justifiable. It is a hint to the newly married. The trousseau of all brides should in the future include automatic revolvers and shotguns, and the bridegroom should pack a rifle to the bridal altar. As a hint to the feeble-minded it probably would be sufficient and it would go a long way towards establishing a much-needed reform.

The three most dreaded physical diseases that effect modern civilized life are consumption, paralysis, and cancer. Whenever any discovery is made whereby their ravages may be checked there is always much joy and a corresponding sense of relief. In fact medical science has made such great strides that there is good reason to believe that before very many years consumption may be as rare as smallpox and other diseases that have been virtually overcome. But cancer and paralysis have mostly baffled the skill of doctors and up to the present time medical research has accomplished but little. But now it is said that a cure for paralysis has been discovered. If the report is true it means much for the suffering thousands in our own land.

When the old writer said that every man should "burn his own smoke", he meant that we should keep our fears and worries to ourselves and not burden our friends with them. But then there are people who are never happy unless they are miserable, contradictory as the expression may seem. There are people whose one joy seems to be the recital of all their pains, trials, morbid fancies and everything else that is dark into the ears of others.

For some months to come in both political meetings and literature dealing with candidates the word "logical" will have a prominent place. The friends of every aspirant to office will speak of him as the "logical candidate". But in many cases it will be hard to discover the logic.

If one wants to spoil life for himself and for others he has only to be selfish. Let him be that and joy and contentment give place to suspicion, gloom and unsatisfaction.

The man who in himself combines ignorance and deceit—and quite often the two are in partnership—is a man whom others very wisely keep from as much as possible.

CONGRESSMAN HELM
WANTS ROCKCASTLE TO
REMAIN IN THE
EIGHTH

Washington, D. C.
February 21, 1912
Mr. E. S. Albright, Editor
THE MT. VERNON SIGNAL,
Mt. Vernon, Ky.

Dear friend:
I have just read the editorial comment in the last issue of your paper on the proposed taking of

Rockcastle out of the Eighth and putting it in the Eleventh Congressional District. You have hit the nail squarely on the head. I haven't felt very much about it yet because I believe it to be a move on the part of a candidate for Congress who is undertaking to coerce the support of the county, ultimately claiming that he is responsible for the rescue.

You have noticed that there is a bill to take Anderson county out of the Judicial District in which Shelby and Spencer are located. In my opinion this is for the purpose of coercing the support of Shelby and Spencer. The two movements have so many features of striking resemblance, as to justify suspicion, and justify the statements made by you, in part at least. There are several underlying reasons, but I think if you look closely enough you will see the hidden hands.

I expect to be the next Democratic Nominee in that Congressional District; and, if C. Sey and Adair must, for any reason, come in, I will Rockcastle to remain in the district, and while it will mean a harder fight to carry the district, I am more than willing to take the chances.

I only lost Rockcastle the last time, by fifty seven votes, if my recollection is right, and I characterize the efforts to put Rockcastle in the Eleventh as extremely small politics, and that the people behind the move are making it for reasons other than the general good and welfare of the party.

With kind personal regards,
I am, Your friend,
HARRY HELM.

Snider, Ky.
Feb. 25 1912.
EDITOR MT. VERNON SIGNAL,
Mt. Vernon Ky.

Dear Editor:

Seeing that others are contributing articles in your paper for the improvements of our county and the principal discussions being on good roads, I take the liberty of writing or expressing my thoughts on a different line but to my mind the very starting point for good roads. I don't want to make the impression that I am not in favor of good roads. What I want is the discussion of the farmers of Rockcastle, which I believe if it had been made, or her people been practicing, her good roads would have already been made as he people would have been more financially able to build good roads. In almost every section of the United States, East, West, North or South we hear their people boasting their good qualities as a farming section. We don't hear much of that here in Rockcastle. It is because we believe we have nothing to boast no inducements to offer to our northern friends nothing we have worth mentioning. I believe it is because we do not realize what we are worth and that farming in Rockcastle is only in its infancy. The vast areas of fine timber of which once we could boast and upon which we once lived is all gone and now we must farm. A few of our good energetic farmers have demonstrated what can be done with the soil of Rockcastle. They have taken some of the farms that were in the worst condition and considered worthless and by good judgment and energy have gotten their farms in fine condition as well as lived on them in their poor state of cultivation. Why can't the farmers that are not doing so well on their farms get a few pointers from some of these that are more progressive. Oklahoma and Texas are great States because they have the people with push and energy to make them so. Let's just compare some of our advantages over these states so that we can fully realize our worth; 1st. We don't have the hot winds to visit us burning up our crops, loosing all of our Spring crop. 2nd. We don't have the extended drouths as they have in many sections there. 3rd. We never worry about insects that very often destroy the crops there. 4th. We don't have chills or malaria as they have them there. 5th. We don't worry about cyclones. This alone is enough to cause the most strong spirited to shiver regardless of the progress he may be making in agricultural lines.

We are blessed naturally with many things and if we can only get the progressive spirit of our Western friends and get busy we will surely be more successful.

If they are so successful when only raising a good crop every two or three years, why should we not be more successful when we can raise a good crop every year. We can figure in the spring before we even plant our crop about what we will be worth in the fall. They can't. The poem, "There is more in the man than in the land, perhaps means more today than the day it was written. Fifty years ago the farmers did not have to worry about applying fertilizer or anything to make his crop grow but simply planted his grain cultivated and the soil did the rest. We are today confronted with making the soil and the crop and when we do this we prove that there is more in the man than in the land.

The soils of Rockcastle are not the poorest but they can be made much better each year besides we as a people can become more independent each year. For those that are not able to take courses in agriculture, much valuable information is given to the farmers in the free Government Agricultural bulletin. We certainly should take advantage of these. Less corn and more grass and in rotation with our corn we should grow more of the feeds, such as cow peas, hay, bean and clovers.

The Government's soil survey of Rockcastle county is enough to make each farmer in the county feel pretty good over his possession but we will all feel much better and more prosperous as soon as we get busy and put into actual practice modern farming methods. As soon as we are able to raise a surplus, have learned just how to make the farm pay, certainly then every man will want good roads, and will not have to mortgage his farm in order to take them.

Yours for success,
M. A. CHASTEN.

AFTER GOLD CHECK
PASSERS.

The Lexington Herald, in reporting the annual meeting of Credit Men's Association, announced the following plans which should be of interest to all and if they are carried out will doubtless be a material benefit to merchants attempting to carry on legitimate business. The article runs as follows:

The Banking and Legislative Committee reported that the Louisville Credit Men's Association was preparing for presentation to the Legislature a bill to make it a penal offense to pass a "cold" check, and a special committee was appointed to cooperate with a similar committee from the Louisville association, which also is a member of the National Association of Credit Men, to secure its favorable consideration.

The committee also reported that a bill had been introduced in the Legislature making it a penal offense to obtain goods on a false credit statement. A committee was appointed to ascertain the provisions of this bill, and to present it to a meeting of the executive

committee, which was instructed to advise on the passage of a bill, provided it is approved by the committee.

The members of the association comprising the leading jobbers and millers of Central Kentucky have agreed to exchange information as to their experience with merchants buying goods in this territory in order that these merchants who are guilty of well recognized trade abuses may be known to the members with whom they may do business.

Paternalism and collectivism have not the same terror for people they once had. It is now realized that changed economic and industrial conditions have necessarily made almost impossible the individualism of former days. The danger is collectivism is the possibility that it may check individual initiative and enterprise but the danger is probably remote.

A Relief Lodge was organized here last Friday evening with 40 members by Mrs. Dorah Hughes, of Barboursville, District President, and Miss Minnie Jones, of Lexington. Mrs. Roy Beasley was elected Noble Grand, Miss L. L. Mae Lovell, Vice Grand, Miss Ethel Davis, Sec. and Miss Mattie Butner, Treas. Regular meetings will be held on Saturday afternoon at 2 o'clock.

Hon. Harvey Helm, Congressman from this district wants the tobacco-growing readers of Signal to know that, by special concession of the department of Agriculture, he has secured several hundred small packages of White Burley and Yellow Pryor tobacco seed, which he will be glad to send to any who will address him "care House of Representatives, Washington, D. C." as long as the supply lasts.

The marriage of Miss Lillie C. Butner and Mr. James M. Littell was quietly celebrated at the home of the officiating minister, Rev. Mark Collis at 4 o'clock on Wednesday afternoon. The ceremony was witnessed by the bride's cousins, Mr. and Mrs. William Butner, of this city.

The wedding comes as quite a surprise to the many friends of the popular couple, as the news is heard with good wishes from all.

The bride is the daughter of the late Mr. I. F. Butner, of Wildie, Ky., and has made Lexington her home for a number of years and is loved and admired by a host of friends here and in her old home. Mr. Littell is the son of Mr. and Mrs. Ernest Littell, of Williams-town, Ky., and has also lived in Lexington for some time, holding a position with the C. & O. railroad.

The bride wore her traveling suit of dark blue cloth with hat to match and immediately after the ceremony, the couple left for a trip and upon their return will go to house keeping at 711 Hanbrick avenue.—Lexington Leader.

The Young Peoples Missionary League gave an enjoyable Missionary Social last Friday night, Feb. 23, at the Dormitory. About eighty guests including members were present many of whom were dressed in foreign costume indicative of some Missionary country.

Progressive games with the Missionary idea predominant, were conducted in four rooms.

An interesting and instructive feature of the evening was a Chinese wedding conducted by Mr. Watson with the assistance of Mr. Furnish, Elizabeth Gentry and Jamie Thompson, all attired in Chinese costume. After this was concluded the social committee served the guests with dainty refreshments consisting of sandwiches, tea and home made candy. The next regular meeting of the League will be on March 2nd at the manse. The members are studying "The Uplift of China" and are enjoying the opportunity of coming together in an instructive and social way. A cordial invitation is extended to the young people of Mt. Vernon who are not already members of this organization.

If Mt. Vernon is to have a new up-to-date hotel, it is up to our people to get busy, and see what can be done, and now is the time for something to be doing. For those who can to simply stand still and let the golden opportunity pass, to have a good modern hotel would be a shame and disgrace and those who can do, certainly ought to get busy. Fair time and other gatherings will come which is going to require hotel accommodations and there is certainly every reason why prompt action should take place. Let everybody talk it and fight for it and get the wheels of progress started.

TAYLOR—Mr. T. G. (Oy) Taylor aged 64 years, died last Saturday morning at his home near Mareburg this county, after an illness of only 18 hours of lock bowel. The deceased was taken sudden ill and from the first to the last suffered the most excruciating pain, and nothing that medical skill could do gave him any relief from the intense suffering. Mr. Taylor had been a resident of this county most of the time for the last 25 years and was one of the most respected and honored citizens of the county. He leaves a wife and six grown children to mourn the loss of a kind and devoted husband and father. The remains were laid to rest in the family burying ground Monday.

The recent fires in Mt. Vernon have made clear two things: First that Mt. Vernon, has a lot of plucky, energetic and determined fire fighters, who are not afraid of work, and who are ready to stay on the job as long as there is any hope of putting out the flames or saving property. But there is another fact that has been brought out by the late fires in Mt. Vernon—namely that because of a lack of organization, the fire fighting has not been as effective as it might have been, and certainly the loss of property through unnecessary breakage has been much greater than it should have been.

Whatever our attitude is toward water-works in Mt. Vernon, why not provide for the immediate future by organizing a volunteer fire brigade that will fight our fires not only with persistence but with system and order, with a level headed, steady nerved man as fire chief, and a few able captains with squads under him, our loss by fires in Mt. Vernon, would be reduced to a minimum. Is the question a timely one, and is it worth your consideration and prompt action.

About eleven o'clock last Sunday morning another fire alarm was given. This time it was the residence of Mr. R. A. Sparks, a fire had started in a closet filled with clothing in an unused bed room. How the fire started was a great mystery and more so to Mrs. Sparks and her father, Capt. Bentley, who discovered the blaze and began pouring on water and so far as the fire was concerned would have done but little damage had not some of the people gone crazy and tried to tear up all the furniture as well as tear down the house. People should remember that if property can not be saved in a fairly good condition it had just as well burn. The damage amounted to about \$125.

NATURE'S LAWS.

Nature's laws are perfect if only we obey them; but disease follows disobedience. Go straight to Nature for the cure, to the forest; there are mysteries there, some of which we can fathom for you. Take the bark of the Wild-cherry tree, with mandrake root, Oregon grape root, stone root, queen's root, bloodroot and golden seal root, make a scientific, glyceric extract of them, with just the right proportions, and you have

DOCTOR PIERCE'S GOLDEN MEDICAL DISCOVERY.

It took Dr. Pierce, with the assistance of two learned chemists and pharmacists, many months of hard work experimenting to perfect this vegetable alternative and tonic extract of the greatest efficiency.

C. W. PAWLEY, ESQ.

MR. C. W. PAWLEY, of Millville, Calif., writes: "I wish to tell you that I have used your 'Golden Medical Discovery' in my family for twenty years. We have had a doctor called in but one during that time. I have a family of ten children, all well and hearty, for which, to a great extent, we owe thanks to you and your 'Golden Medical Discovery' and 'Pellets,' which we use when sick."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

VOX POPULI.

O, Theodore, "just this once more,"

The people's voice doth plead, Thy leadership, as once before in time of sorest need.

The "Ship of State" flies at the mast

The signal of distress, The billows howl before the blast Crowned with foam of recklessness.

"Old Glory" waves amid the storm

The emblem of a nation's pride

The heritage of souls unborn

A monument to those who died.

For, this, we plead, our Common Cause

That calls aloud from far and near,

To free us from pernicious laws

Withholding justice everywhere.

This call is heard from shore to shore,

From South and East, from North and West,

That "Teddy lead, again once more

To check the tide, of lawlessness.

The lust, and greed for gold and power,

Doth reign supreme throughout the land.

Our hope and trust at this dark hour

Is in thy strong and guiding hand.

Gigantic "Trusts" restricting trade

Tyranny of the "Money Power"

Is cause enough! We seek thy aid,

In guiding us at this dark hour.

We've been betrayed from year to year.

We've hearkened to the "Boss" too long,

We've lent to long a willing ear

To soothing strains of the siren's song,

"Protection" as a galling yoke,

Has weighed us down, thus on and on

The "Tariff" slogan, a mighty hoax

A grim reminder of the nations wrong.

Again we plead—"The people's choice"

Shall grasp once more the helm of state

Obedient to the "peoples" voice

And save us from impending fate.

"Old Glory" waving overhead,

With out stretched arms we plead,

To Teddy R. our mighty chief

In this time of need.

With such a leader, tried and true,

With cohorts brave and strong

With watchword "On to Victory"

We pass the word along.

DON'T ABUSE YOUR WATCH

YOU do not run your buggy, automobile or other machinery till it squeaks and grinds and cuts itself to pieces. You clean and oil it often.

You should be as careful of your watch. It is small and light and can not speak loud when it is dry and needs cleaning and oiling so it is liable to cut and wear and need attention before you know it. You may not know it till the watch is completely ruined and stops.

Bring your watch to us and let us examine it with our strong glass to see its condition accurately. We will show you and explain the exact condition.

Every watch should be thoroughly cleaned and re-oiled and adjusted once in each year. Take proper care of your watch and it will last you a lifetime.

Consult us on all WATCH DISEASES.

UP TO WILSON.

As a piece of writing the article with which Col. Watterson closes the Wilson Harvey incident, so far as he is concerned, and departs from political activities for the present, will live for a very long time.

Thus far Gov. Wilson has said nothing except to challenge the truthfulness of Col. Watterson and treat lightly and in somewhat scornful way everything connected with the incident.

Col. Watterson is restrained from making public the proof which he offered to place before five disinterested men touching the veracity of the candidate from New Jersey, but the biting scorn with which he treats the attitude of Gov. Wilson in the whole matter and the picture he draws of the Governor, who accepting the praise from the unthinking for spurning the support of Harper's Weekly, was secretly written to the editor for forgiveness will not be easily effaced.

The dismissal which he gives to the fessed to live off the immaculate contributions of subscribers having wings, harps and halos is sufficiently scorching to make the Literary Bureau heed the suggestion made in our columns that the contributions collected in Wall street for Gov. Wilson be published.

Although the facts that Col. Watterson promised are not forthcoming, because of no reluctance of his, his parting shot will undoubtedly rankle.—New York Herald.

Blood Was Wrong

All women, who suffer from the aches and pains, due to female ailments, are urged to try Cardui, the reliable, scientific, tonic remedy, for women. Cardui acts promptly, yet gently, and without bad effects, on the womanly system, relieving pain, building up strength, regulating the system, and toning up the nerves. During the past half century, thousands of ladies have written to tell of the quick curative results they obtained, from the use of this well-known medicine.

TAKE CARDUI The Woman's Tonic

Mrs. Jane Calahan suffered from womanly trouble for nearly ten years. In a letter from Whiteville, N. C., she says: "I was not able to do my own housework. My stomach was weak, and my blood was wrong. I had back-ache, and was very weak. I tried several doctors, but they did me no good. I used Cardui for 3 or 4 months, and now I am in the best health I have ever been. I can never praise Cardui enough." It is the best tonic, for women.

Whether seriously sick, or simply weak, try Cardui.
